

NUVEEN GLOBAL CITIES REIT, INC.
SUPPLEMENT NO. 7 DATED SEPTEMBER 15, 2020
TO THE PROSPECTUS DATED APRIL 17, 2020

This prospectus supplement (the “Supplement”) is part of and should be read in conjunction with the prospectus of Nuveen Global Cities REIT, Inc. dated April 17, 2020 (the “Prospectus”), Supplement No. 1 dated April 17, 2020, Supplement No. 2 dated April 24, 2020, Supplement No. 3 dated May 15, 2020, Supplement No. 4 dated June 16, 2020, Supplement No. 5 dated July 15, 2020 and Supplement No. 6 dated August 17, 2020. Unless otherwise defined herein, capitalized terms used in this Supplement shall have the same meanings as in the Prospectus.

The purposes of this Supplement are as follows:

- to provide updates to our operations;
- to disclose the transaction price for each class of our common stock as of October 1, 2020;
- to disclose the calculation of our August 31, 2020 net asset value (“NAV”) per share for each class of our common stock;
- to provide an update on our initial public offering; and
- to update the “Experts” section of the Prospectus.

Operations Updates

Our U.S. portfolio is 98% leased as of August 31, 2020 and the portfolio has demonstrated its overall rent durability during the COVID-19 pandemic. In August 2020, we collected 95% of rent in the U.S. portfolio. Rent collection in August 2020 was led by our medical office (100% collected), followed by industrial properties (99% collected), multifamily (95% collected), retail (93% collected), and office (92% collected). We have granted rent deferment on a case-by-case basis to primarily small business tenants to assist them through this challenging time in order for us to emerge after this pandemic with well-occupied properties. We anticipate this deferred rent will be paid back in 2020 and 2021, over the term of each lease, or added to the end of the lease term.

While virtually no property sector or portfolio is immune from the negative effects of this pandemic-driven recession, we believe certain sectors and strategies are better positioned in these uncertain times and will gain as the economy recovers. We continue to believe we are well positioned due to our (i) lower leverage (21%), (ii) long-term leases and high occupancy, (iii) very limited lease expirations over the next two years, (iv) no CMBS exposure, and (v) no material exposure to hospitality, gaming, leisure, student or senior housing, which are anticipated to be some of the most negatively affected sectors in the near term.

October 1, 2020 Transaction Price

The transaction price for each share class of our common stock for subscriptions accepted as of October 1, 2020 (and repurchases as of September 30, 2020) is as follows:

| | Transaction Price (per share) |
|---------------|--|
| Class T | \$ 10.37 |
| Class S | \$ 10.36 |
| Class D | \$ 10.45 |
| Class I | \$ 10.48 |

The transaction price for our Class T, Class S, Class D and Class I shares is equal to such class's NAV per share as of August 31, 2020. A detailed presentation of the NAV per share is set forth below.

The purchase price of our common stock for each share class equals the transaction price of such class, plus applicable upfront selling commissions and dealer manager fees.

August 31, 2020 NAV Per Share

We calculate NAV per share in accordance with the valuation guidelines that have been approved by our board of directors. Our NAV per share, which is updated as of the last calendar day of each month, is posted on our website at www.nuveenglobalreit.com. Please refer to "Net Asset Value Calculation and Valuation Guidelines" in the Prospectus for information on how our NAV is determined. The Advisor is ultimately responsible for determining our NAV. As of August 31, 2020, our properties have been appraised in accordance with our valuation guidelines and such appraisals were reviewed by our independent valuation advisor.

The following table provides a breakdown of the major components of our NAV as of August 31, 2020 (\$ and shares in thousands):

| Components of NAV | August 31, 2020 |
|---|------------------------|
| Investment in real property | \$435,695 |

- (1) Stockholder servicing fees only apply to Class T, Class S and Class D shares. For purposes of NAV we recognize the stockholder servicing fee as a reduction of NAV on a monthly basis as such fee is paid. Under GAAP, we accrue the full cost of the stockholder servicing fee as an offering cost at the time we sell Class T, Class S and Class D shares. As of August 31, 2020, we have accrued under GAAP approximately \$4.2 million of stockholder servicing fees payable to the Dealer Manager related to the Class T, Class S and Class D shares sold.

Set forth below are the weighted averages of the key assumptions in the discounted cash flow methodology used in the August 31, 2020 valuations, based on property types. Once we own more than one retail property and other property, we will include the key assumptions for such property types.

| <u>Property Type</u> | <u>Discount Rate</u> | <u>Exit Capitalization Rate</u> |
|----------------------|----------------------|---------------------------------|
| Industrial | 6.75% | 6.01% |
| Multifamily | 6.88 | 5.40 |
| Office | 7.05 | 6.41 |

These assumptions are determined by our independent valuation advisor. A change in these assumptions would impact the calculation of the value of our property investments. For example, assuming all other factors remain unchanged, the changes listed below would result in the following effects on our investment values:

| <u>Input</u> | <u>Hypothetical Change</u> | <u>Industrial Investment Values</u> | <u>Multifamily Investment Values</u> | <u>Office Investment Values</u> |
|--------------------------------|----------------------------|-------------------------------------|--------------------------------------|---------------------------------|
| Discount Rate | 0.25% decrease | +2.00% | +1.90% | +1.90% |
| (weighted average) | 0.25% increase | (2.00)% | (1.90)% | (1.90)% |
| Exit Capitalization Rate | 0.25% decrease | +2.70% | +2.90% | +2.40% |
| (weighted average) | 0.25% increase | (2.80)% | (2.80)% | (2.30)% |
