

Dear Nuveen Corporate Shareholder:

We are pleased to provide you with tax information that may help you prepare your federal and state tax returns, including foreign tax credit information, percentage of income distributions that qualify for the corporate dividends received deduction, and percentage of income derived from U.S. government obligations.

Foreign Tax Credit Information:

Corporate Shareholders in the funds listed below may be entitled to either a foreign tax credit or deduction on their federal income tax return for the amount of taxes each of the funds paid to foreign governments on income derived from foreign holdings. Generally, in order to claim foreign taxes paid as a credit you must have owned your fund shares for more than 15 days before or after the fund's last record date. To determine the portion of your ordinary income dividends which are related to foreign source income, you should multiply the sum of ordinary income and short-term capital gain distributions received (including reinvested amounts) on your year-end statement by the appropriate percentage listed below.

U.S. Government Obligation Information:

In many states, ordinary income dividends may be exempt from state tax to the extent they are derived from obligations of the U.S. government. For each Nuveen fund with such income, the table below shows the percentage of the distributions paid that were derived from obligations of the U.S. government. To determine the portion of your dividends attributable to U.S. obligations, you should multiply the sum of ordinary and short-term capital gain distributions received (including reinvested amounts) on your year-end statement by the appropriate percentage listed below.
