Important Information Regarding Your Monthly Distribution

March 2, 2023: This notice provides shareholders with information regarding fund distributions, as required by current securities laws. THIS NOTICE IS FOR INFORMATIONAL PURPOSES ONLY. NO ACTION IS REQUIRED ON YOUR PART.

The Nuveen Global Real Estate Securities Fund seeks to pay regular dividends at a rate that reflects the cash flow received from the Fund's investments in portfolio securities. Fund distributions are not intended to include expected portfolio appreciation; however, the Fund invests in securities that make payments which ultimately may be fully or partially characterized for tax purposes by the securities' issuers as gains or return of capital. While the reported sources of distributions may include capital gains and/or return of capital for tax purposes, the Fund intends to distribute only the net cash flow received as opposed to a distribution rate based on long-term total return. This tax treatment will generally "flow through" to the Fund's distributions, but the specific tax treatment is often not known with certainty until after the end of the Fund's tax year. As a result, certain portions of the regular distributions by the Nuveen Global Real Estate Securities Fund throughout the year were later re-characterized for tax purposes as either long-term gains (both realized and unrealized), or as a non-taxable return of capital, as set forth in the table below.

The following table presents for each share class the estimated character of the total monthly distributions per share for the fund during the recently ended fiscal period, in conformity with Section 19(a) of the Investment Company Act of 1940. These figures should not be used for tax reporting purposes. The final determination of the character of all distributions for calendar year 2022 will be made in early 2023 and reported to shareholders on Form 1099-DIV at that time.
