3 Use at schools anywhere

Funds can be used at any accredited university, college or vocational school nationwide — and many abroad. Basically any institution with a student aid program qualifies.

4 Use for more than just tuition

The MI 529 Advisor Plan can be used to pay for qualified higher education expenses like tuition, certain room and board costs, computers and related technology expenses as well as fees, books, supplies, and other equipment.

5 Lower impact on financial aid than other savings options

* The treatment of investments in a 529 savings plan varies by school. Assets are typically treated as the account holder's and not the student's. (Student assets are generally assessed at 20% whereas parental assets are generally assessed at 5.6%.) Any investments, including those in 529 accounts, may affect the student's eligibility to get financial aid based on need. You should check with the schools you are considering regarding this issue.

1 For non-qualified withdrawals, earnings are subject to income taxes and may be subject to additional tax penalties. Please consult your tax professional.
