

Nuveen Minnesota Quality Municipal Income Fund (NMS)

Marketing communication | 3Q 2024 | As of 30 Sep 2024

Fund description

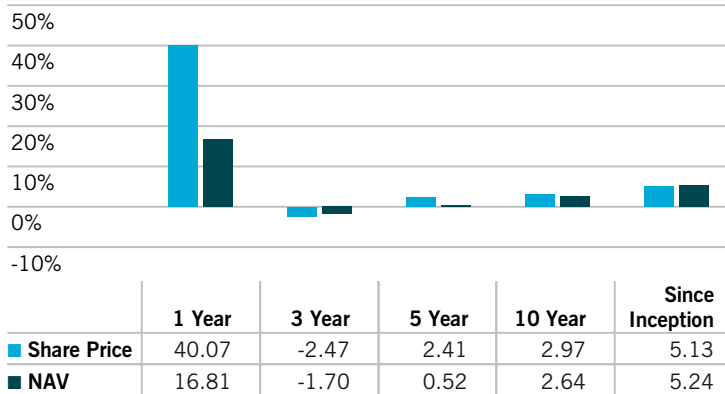

The primary objective of the Fund is to provide current income exempt from regular federal and Minnesota personal income taxes. The Fund's secondary investment objective is to enhance portfolio value.

The Fund invests in municipal securities that are exempt from regular federal and Minnesota personal income taxes. The Fund invests at least 80% of its managed assets in investment grade securities rated, at the time of investment, investment grade or, if they are unrated, are judged to be of comparable quality. The Fund may invest up to 20% of its managed assets in municipal securities that, at the time of investment, are rated below investment grade or are unrated but judged to be of comparable quality. No more than 10% of the Fund's managed assets may be invested in municipal securities rated below B3/B- or that are unrated but judged to be of comparable quality. The Fund uses leverage.

Calendar Year Returns (%)

Average Annualized Total Returns (%)

Performance data shown represents past performance and does not predict or guarantee future results. Current performance may be higher or lower than the data shown. NAV returns are net of fund expenses, and assume reinvestment of distributions.

<i>Total</i>	<i>4.23%</i>	<i>2.51%</i>

See the Fund's Annual Report for full information on expenses.

- Total Investment Exposure is the total of the Fund's managed assets plus any additional economic exposure the Fund has due to its investments in certain securities.
- Effective leverage is the Fund's effective economic leverage, and includes both regulatory leverage and the leverage effects of certain derivative investments in the Fund's portfolio that increase the Fund's investment exposure. Regulatory leverage consists of preferred shares issued by or borrowings of a fund. Both of these are part of a fund's capital structure. Regulatory leverage is subject to asset coverage limits set in the Investment Company Act of 1940. For more information, see Understanding Leverage on www.nuveen.com/cef.
- All characteristics are asset-weighted using the current market value of investments held in the portfolio as well as the full amount and exposure of bonds held in a tender option bond (TOB) trust, even though the fund owns only the residual inverse floater in its portfolio. Holdings and ratings are subject to change. Totals may not add up to 100% due to rounding.
- Debt characteristics (duration, maturity, bond price) are relative to the percentage of the portfolio invested in debt securities.

49-60 Months	6.3%

Key Information Regarding Distributions^{1, 2}

Current Distribution (Monthly)	\$0.0735
Average Earnings/Share	\$0.0340
Average Earnings/Distribution Ratio	46.29%
Average UNII Per Share	-\$0.2229
Distribution Rate on NAV	6.84%
Distribution Rate on Market Price	6.83%

Total Distributions Paid Per Share

YTD (Declared)	\$0.5260
Inception to Date (Declared)	\$24.4590

Distribution sources may include net investment income, realized gains and return of capital. If a distribution includes anything other than net investment income, the Fund provides a notice of the best estimate of its distribution sources at that time which may be viewed at nuveen.com/CEFdistributions. These estimates may not match the final tax characterization (for the full year's distributions) contained in shareholders' 1099-DIV forms after the end of the year. You should not draw any conclusions about a fund's past or future investment performance from its current distribution rate.

Top 5 Holdings

	% of Portfolio
Duluth Economic Development Authority	4.1%
Housing & Redevelopment Authority Of The City Of St Paul Minnesota	3.2%
Western Minnesota Municipal Power Agency	2.7%

	% of Portfolio
Education and Civic Organizations	24.3%
Health Care	21.1%
Tax Obligation/General	19.5%
Tax Obligation/Limited	10.0%
Utilities	7.3%

Important information on risk

Investing in closed-end funds involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved. Closed-end fund shares may frequently trade at a discount or premium to their net asset value. **Debt or fixed income securities** such as those held by the Fund, are subject to market risk, credit risk, interest rate risk, derivatives risk, liquidity risk, and income risk. As interest rates rise, bond prices fall. **Leverage increases** return volatility and magnifies the Fund's potential return and its risks; there is no guarantee a fund's leverage strategy will be successful. **State concentration** makes the Fund more susceptible to local adverse economic, political, or regulatory changes affecting municipal bond issuers. These and other risk considerations such as **inverse floater risk** and **tax risk** are described in more detail on the Fund's web page at www.nuveen.com/NMS.

- Average earnings per share and average undistributed net investment income (UNII) per share** are estimates, using an average of the last three months, except for preferred securities funds, mortgage-backed securities funds and floating rate funds, which use an average of the last six months.
- Distribution Rate** at market price and NAV is calculated by annualizing the most recent declared regular distribution and dividing by the fund's market price or NAV, respectively. Special distributions, including special capital gains distributions, are not included in the calculation.
- All characteristics are asset-weighted using the current market value of investments held in the portfolio as well as the full amount and exposure of bonds held in a tender option bond (TOB) trust, even though the fund

owns only the residual inverse floater in its portfolio. Holdings and ratings are subject to change. Totals may not add up to 100% due to rounding.

- For the percentage of the portfolio in debt, preferred and other hybrid securities, including CoCos (if any). Percentages reflect the percentage of the Fund's investment exposure callable in the timeframe relative to the "as of" date shown. The "Next 12 months" figure (if shown) includes investments that are currently callable, as well as callable in the next 12 months. Securities subject to call may not be called.

Glossary

Average Coupon is the average coupon rate, or amount of interest paid as expressed by a percentage, of all fixed-income investments in the Fund's portfolio. **Effective Maturity** is the weighted average of the effective maturity dates of the fixed-income securities in the Fund's holdings. A bond's effective maturity takes into account the possibility that it may be called by the issuer before its stated maturity date. In this case, the bond trades as though it had a shorter maturity than its stated maturity. **Leverage Adjusted Effective Duration** is the Fund's average effective duration adjusted for the impact of the Fund's utilization of leverage in the form of senior securities as defined by Section 18 of the Investment Company Act of 1940. Funds that utilize leverage in the form of senior securities will have a leverage-adjusted effective duration that is longer than its baseline effective duration.
