

Nuveen Lifestyle Income Fund

Marketing communication | As of 31 Mar 2025

Effective 01 May 2024, the Fund's name changed from TIAA-CREF Lifestyle Income Fund to Nuveen Lifestyle Income Fund. In addition, effective 06 May 2024, the Fund's Institutional, Advisor and Retail share classes were renamed, and an up-front sales charge was applied to certain purchases of Class A shares (formerly Retail Class shares). Please see the Fund's prospectus supplement dated 22 Jan 2024 for more details. These changes will not impact the Fund's investment strategy or portfolio management.

Performance data shown represents past performance and does not predict or guarantee future results. Investment returns and principal value will fluctuate so that shares redeemed may be worth more or less than their original cost. Current performance may be higher or lower than the performance shown. Total returns for a period of less than one year are cumulative. Returns without sales charges would be lower if the sales charges were included. Returns assume reinvestment of dividends and capital gains. For performance current to the most recent month-end visit nuveen.com. Performance shown for benchmark since inception is as of the Fund's oldest share class.

Class I shares are available for purchase through certain financial intermediaries and employee benefit plans. Class A shares are available for purchase through certain financial intermediaries or by contacting the Fund directly at 800.752.8700 or nuveen.com. Class R6 shares are available for purchase directly from the Fund by certain eligible investors (which include employee benefit plans and financial intermediaries). Premier Class and Retirement Class shares are generally available for purchase through employee benefit plans or other types of savings plans or accounts.

Class A share class has maximum sales charge of 5.75%.

Fund description

The Lifestyle Income Fund seeks current income with some capital appreciation. The Fund will pursue this goal through a “fund of funds” approach, whereby it will primarily make investments in R6 shares of other Nuveen Funds. The Fund is designed for investors seeking current income with some capital appreciation through a relatively stable asset allocation strategy targeting an income-oriented and conservative risk/return profile. It will generally seek to meet its objective by investing: (1) approximately 20% of its assets in underlying equity funds and (2) approximately 80% in underlying fixed-income funds. The Fund may deviate from these target allocations by up to 10% depending upon current market conditions and outlook. As a result of its investments in various underlying funds, the Lifestyle Income Fund's returns will reflect investments across a mix of domestic and foreign equities of all capitalization sizes and a variety of domestic and foreign fixed-income instruments across maturities and credit qualities.

Morningstar ranking/number of funds in category displays the Fund's actual rank within its Morningstar Category based on average annual total return and number of funds in that Category. The returns assume reinvestment of dividends and do not reflect any applicable sales charge. Absent expense limitation, total return would be less. Morningstar percentile rankings are the Fund's total return rank relative to all the funds in the same Morningstar Category, where 1 is the highest percentile rank and 100 is the lowest percentile rank.

Important information on risk

Mutual fund investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved and the advisor's **asset allocation** and investment strategies may not perform as expected. The Fund is a fund of funds subject to the risks of its **underlying funds** in proportion to each Fund's allocation. Because the Fund targets its investments in a higher percentage of fixed-income underlying funds, these risks are expected to predominate. **Fixed-income securities** may be susceptible to general movements in the bond market and are subject to credit, interest rate, and fixed-income foreign investments risks. **Non-U.S. investments** involve risks such as currency fluctuation, political and economic instability, lack of liquidity and differing legal and accounting standards. These fixed-income underlying funds risks, such as call, extension, and income volatility risks as well as other risk considerations, such as active management and equity underlying funds risks, are described in detail in the Fund's prospectus.

The information provided does not take into account the specific objectives or circumstances of any particular investor, or suggest any specific course of action. Investment decisions should be made based on an investor's objectives and circumstances and in consultation with his or her financial professional.

Glossary

Beta is a measure of the volatility of a portfolio relative to the overall market. A beta less than 1.0 indicates lower risk than the market; a beta greater than 1.0 indicates higher risk than the market. **Standard deviation** is a

statistical measure of the historical volatility of a mutual fund or portfolio; the higher the number the greater the risk. **Turnover ratio** is calculated by dividing the lesser of purchases or sales by the average value of portfolio assets during a period. Turnover is based on the portfolio's fiscal year end and is not annualized if the reporting period covers less than 12 months.

Lifestyle Income Fund Composite Index is a composite of unmanaged benchmark indices that represent the market sectors in which the Fund invests across the equity and fixed-income asset classes. The Composite Index provides a more relevant benchmark for the Fund's performance as compared to the Fund's unmanaged broad-based market indices. **Morningstar Conservative Target Risk Index** is an asset allocation index comprised of constituent Morningstar indexes and reflects global equity market exposure of 20% based on an asset allocation methodology from Ibbotson Associates, a Morningstar company. **It is not possible to invest directly in an index.**
