

## **Important Notice Regarding Availability of Proxy Materials for the Special Meeting of Shareholders of the Nuveen Core Equity Fund (the “Fund”)**

**January 16, 2026**

Although it is recommended that you read the complete Proxy Statement, for your convenience, a brief overview of the proposal to be voted on is provided below.

### **Q. Why am I receiving this Proxy Statement?**

**A.** At a meeting held on December 11, 2025, the Board of Trustees of the Fund (the “Board”), following the recommendation of Teachers Advisors, LLC, the Fund’s investment adviser (the “Adviser”), unanimously approved reclassifying the diversification status of the Fund from “diversified” to “non-diversified” and the elimination of a related fundamental investment restriction, subject to the approval of Fund shareholders (the “Proposal”). You are receiving the enclosed Proxy Statement in connection with a special shareholder meeting (the “Meeting”) of the Fund to vote on the approval of the Proposal.

The Board unanimously recommends that you vote **FOR** the Proposal.

Your vote is very important. You are encouraged as a shareholder to participate in your Fund’s governance by returning your vote as soon as possible. If enough shareholders do not cast their votes, the Fund may not be able to hold the Meeting or the vote on the Proposal, and additional solicitation costs may need to be incurred in order to obtain sufficient shareholder participation.

### **Q. Why am I being asked to approve changing the Fund’s diversification status?**

**A.** Under the Investment Company Act of 1940, as amended (the “1940 Act”), the Fund is currently classified as “diversified.” As a diversified fund, the Fund is limited as to the amount of assets it may invest in the securities of any single issuer. The 1940 Act requires shareholders to approve a change in a fund’s classification from “diversified” to “non-diversified.” If shareholders approve changing the Fund’s classification from diversified to non-diversified, the Fund would be permitted to invest a larger portion of its assets in a smaller number of issuers, as described in greater detail in the Proxy Statement.

The Adviser believes that changing the Fund’s classification to non-diversified is in the best interests of the Fund and its shareholders because it provides the Fund’s investment team with increased flexibility to better implement the Fund’s investment strategy while remaining compliant with the limits of the 1940 Act. The Fund’s benchmark index, the S&P 500® Index (the “Index”), has become more concentrated in certain issuers due to the market appreciation of a handful of companies, including NVIDIA Corporation, Apple Inc., Microsoft Corporation, Alphabet Inc., Amazon.com, Inc., Broadcom Inc. and Meta Platforms, Inc., commonly referred to as the “Magnificent Seven.” Certain of

these Index constituents have grown to each represent more than 5% of the Index and, at times, 25% or more of the Index in the aggregate. As a diversified fund, the Fund is not able to invest in these large Index constituents in similar proportions as the Index.

While the Fund is not an index fund, it does select securities from the Index's universe and its performance is measured against the Index. Changing the Fund's status to non-diversified would give the Fund's portfolio managers enhanced flexibility to invest a greater portion of the Fund's assets in one or more of these large Index constituents, if desired for investment purposes.

### **Q. Whom do I call if I have questions?**

**A.** If you need any assistance, or have any questions regarding the Proposal or how to vote your shares, please call Computershare Fund Services, the Fund's proxy solicitor, at 1-866-510-7650 with your proxy materials.

**A.** You may receive a call from Computershare Fund Services, the proxy solicitor hired by the Fund, to verify that you received your proxy materials, to answer any questions you may have about the Proposal and to encourage you to vote your proxy.

The Adviser recognizes the inconvenience of the proxy solicitation process and would not impose on you if we did not believe that the matter being proposed was important. Once your vote has been registered with the proxy solicitor, your name will be removed from the solicitor’s follow-up contact list.

**Q. How does the Board suggest that I vote?**

**A.** The Board unanimously recommends that shareholders vote FOR the Proposal.

## **Can I cancel or change my vote?**

## **How does a proxy work?**

When you vote by proxy, you are instructing the agents named on the proxy card how to vote on your behalf at the Meeting. At this time, the Board does not know of any other matters being presented at the Meeting. If other matters are brought before the Meeting, the proxy agents will vote the proxies using their own best judgment in their discretion, as allowed by the proxy. All proxies solicited by the Board that are properly executed and received by the Corporate Secretary prior to the Meeting, and are not cancelled, will be voted at the Meeting.

## **Who may vote; How many votes do I get?**

Those persons who were shareholders of record as of the Record Date will be entitled to one vote for each dollar of net asset value they own. Fractional votes will be counted. As of the close of business on the Record Date, there were 69,808,879.90 Class A shares, 617,016.82 Class I shares, 780,067.35 Premier Class shares, 127,846,725.93 Class R6 shares, 66,833,833.74 Retirement Class shares and 139,920,707.57 Class W shares of the Fund outstanding. We will count votes expressed to two decimal points.

Certain funds within the Nuveen Fund complex (the "Fund of Funds") invest in the Fund. Shares of the Fund held by a Fund of Funds are expected to be voted by the Fund of Funds in the same proportion as the vote of other shareholders of the Fund (sometimes referred to as "echo" voting).

As of the Record Date, the Board Members and officers of the Fund as a group owned less than 1% of the total outstanding shares of the Fund and as a group owned less than 1% of each class of shares of the Fund.

## How many votes are needed for a quorum and how do votes count?

A quorum of shareholders is required to take action at the Meeting. Ten percent of the shares entitled to vote at the Meeting, represented in person (virtually) or by proxy, will constitute a quorum of shareholders at the Meeting. Votes cast by proxy or in person (virtually) at the Meeting will be tabulated by the inspectors of election appointed for the Meeting. The inspectors of election will determine whether or not a quorum is present at the Meeting. The inspectors of election will treat abstentions as present for purposes of determining a quorum. Broker non-votes are shares held by brokers or nominees, typically in “street name,” as to which (i) instructions have not been received from beneficial owners or persons entitled to vote and (ii) the broker or nominee does not have discretionary voting power on a particular matter. Broker non-votes typically occur when both routine and non-routine proposals are being considered at a meeting. Because the single matter presented at the Meeting is a “non-routine” matter for which a broker or nominee does not have discretionary voting power under New York Stock Exchange rules, the Fund does not expect there to be any broker non-votes at the Meeting.

For purposes of determining the approval of the proposal, abstentions will have the same effect as votes against the proposal. The vote required for the proposal is set forth under the description of the proposal below.

## Proposal: Change of diversification status and elimination of fundamental investment policy

Currently, the Fund is classified as a “diversified” fund for purposes of Section 5(b) of the 1940 Act and has adopted a related fundamental investment restriction. As a result, the Fund is limited as to the amount it may invest in any single issuer. Specifically, with respect to 75% of its total assets, the Fund may not invest in a security if, as a result of such investment, more than 5% of its total assets (calculated at the time of purchase) would be invested in securities of any one issuer. Additionally, with respect to 75% of its total assets, the Fund may not hold more than 10% of the outstanding voting securities of any one issuer. These restrictions do not apply to U.S. “government securities” (as defined in the 1940 Act), securities of other investment companies, or cash and cash items (including receivables).

Subject to approval of the Fund’s shareholders, following the recommendation of the Fund’s investment adviser, Teachers Advisors, LLC (the “Adviser”), the Board has approved a change to the Fund’s classification under the 1940 Act to a “non-diversified” company and a change to the Fund’s related fundamental investment restriction. This fundamental investment restriction, which may only be changed with shareholder approval, currently provides that the Fund, as a fundamental policy, may not “with respect to at least 75% of the value of its total assets, invest more than 5% of its total assets in the securities of any one

issuer, other than securities issued or guaranteed by the U.S. government, its agencies or instrumentalities, or hold more than 10% of the outstanding voting securities of any one issuer.” If shareholders approve changing the Fund’s classification from diversified to non-diversified (the “Proposal”), the fundamental investment restriction will be eliminated with respect to the Fund. No material changes to the Fund’s investment strategy are expected if shareholders of the Fund approve the Proposal.

The Adviser believes that changing the Fund’s classification to non-diversified is in the best interests of the Fund and its shareholders because it provides the Fund’s portfolio managers increased flexibility to better implement the Fund’s investment strategy while remaining compliant with the limits of the 1940 Act. The Fund’s benchmark index, the S&P 500® Index (the “Index”), has become more concentrated in certain issuers due to the market appreciation of a handful of companies, including NVIDIA Corporation, Apple Inc., Microsoft Corporation, Alphabet Inc., Amazon.com, Inc., Broadcom Inc. and Meta Platforms, Inc., commonly referred to as the “Magnificent Seven.” Certain of these Index constituents have grown to each represent more than 5% of the Index and, at times, 25% or more of the Index in the aggregate. As a diversified fund, the Fund currently is not able to invest in these large Index constituents in similar proportions as the Index. While the Fund is not an index fund, it does select securities from the Index’s universe and its performance is measured against the Index. Changing the Fund’s status to non-diversified would give the Fund’s portfolio managers enhanced flexibility to invest a greater portion of the Fund’s assets in one or more of these large Index constituents, if desired for investment purposes.

If shareholders of the Fund approve the Proposal, the Fund may be subject to additional investment risks. As a “non-diversified” fund, the Fund would be permitted to invest a greater percentage of its assets in fewer issuers than a “diversified” fund. As a result, the Fund may be more susceptible to adverse developments affecting any single issuer held in its portfolio and may be more susceptible to greater losses because of these developments. To the extent that such issuers operate in the same or similar industry or sectors, the Fund may be more susceptible to a single economic, business, political or regulatory occurrence. Accordingly, if shareholders of the Fund approve the Proposal, the Fund could be subject to greater risk than it currently is subject to as a “diversified” fund.

Even if shareholders of the Fund approve the Proposal, the Fund intends to continue to comply with federal tax diversification restrictions of Subchapter M of the Internal Revenue Code of 1986, as amended (the “IRC”). For purposes of the IRC, the Fund operates as a “regulated investment company.” As a regulated investment company under the IRC, the Fund must diversify its holdings so that, in general, at the close of each quarter of its taxable year, (i) at least 50% of the fair market value of the Fund’s total (gross) assets is comprised of cash, cash items, U.S. government securities, securities of other regulated investment companies, and other securities limited in respect of any

one issuer to an amount not greater in value than 5% of the value of the Fund's total assets and to not more than 10% of the outstanding voting securities of such issuer; and (ii) not more than 25% of the value of its total (gross) assets is invested in the securities of any one issuer (other than U.S. government securities and securities of other regulated investment companies), two or more issuers controlled by the Fund and engaged in the same, similar or related trades or businesses, or certain publicly traded partnerships. These federal tax diversification requirements, or the Fund's determination to comply with them, may change in the future without shareholder approval.

A non-diversified fund may from time to time temporarily operate in a diversified manner without losing its non-diversified status. As a result, at times, the Fund may not take advantage of the greater flexibility afforded a non-diversified fund. However, if following implementation of the Proposal, the Adviser were to continuously operate the Fund as diversified for three years, the Fund will once again become a diversified fund and 1940 Act provisions will require the Adviser to again seek shareholder approval to reserve the freedom of action to operate the Fund as non-diversified.

At a meeting held on December 11, 2025, the Board considered the recommendations of the Adviser to change the Fund's classification to non-diversified and to eliminate the Fund's related fundamental investment restriction. The Board considered all relevant factors, including the potential impact on the Fund and its risk profile and the estimated costs associated with seeking shareholder approval of the proposed change for the Fund. Following its consideration of these matters, the Board unanimously approved the proposed change in the Fund's classification to "non-diversified" and the elimination of the Fund's related fundamental investment restriction.

## **The Board recommends that you vote FOR the Proposal.**

### **Approval of the Proposal**

A quorum of shareholders is required to take action at the Meeting. Ten percent of the shares entitled to vote at the Meeting, represented in person (virtually) or by proxy, will constitute a quorum at the Meeting. If a quorum is present at the Meeting, then the Proposal must be approved by a vote of a majority of the outstanding voting securities of the Fund, with all classes of shares voting together as a single class. The "vote of a majority of the outstanding voting securities" is defined in the 1940 Act as the lesser of the vote of (i) 67% or more of the shares of the Fund entitled to vote thereon present at the Meeting if the holders of more than 50% of such outstanding shares are present in person (virtually) or represented by proxy; or (ii) more than 50% of such outstanding shares of the Fund entitled to vote thereon. For purposes of determining the approval of the Proposal, abstentions will have the same effect as shares voted against the Proposal. Broker non-votes are shares held by brokers or nominees, typically in "street name," as to which (i) instructions have not been received from beneficial owners or persons entitled to vote and (ii) the broker or nominee

does not have discretionary voting power on a particular matter. Broker non-votes typically occur when both routine and non-routine proposals are being considered at a meeting. Because the single matter presented at the Meeting is a “non-routine” matter for which a broker or nominee does not have discretionary voting power under New York Stock Exchange rules, the Fund does not expect there to be any broker non-votes at the Meeting.

If approved by shareholders of the Fund, the change in diversification status and removal of the fundamental investment restriction will become effective when the Fund’s Prospectus and Statement of Additional Information are revised or supplemented to reflect the approval of the Proposal. If the Proposal is not approved by the Fund’s shareholders, the Fund will remain diversified and the current fundamental investment policy will remain in effect and the portfolio managers will continue to manage the Fund pursuant to its applicable investment policies, parameters and restrictions in light of prevailing market and economic conditions.

The Proposal is being made in coordination with a similar proposal for the Nuveen Life Core Equity Fund, a series of TIAA-CREF Life Funds, which is also being submitted to its shareholders and variable contract owners in a separate proxy statement. Because the Fund and the Nuveen Life Core Equity Fund are managed pursuant to the same strategy and portfolio management team, the outcome of the Nuveen Life Core Equity Fund’s shareholder vote may be considered in determining whether and when to implement the Proposal; however, approval of the Nuveen Life Core Equity Fund’s corresponding proposal is not a condition to implementation of the Proposal, and the Proposal may proceed independently if the Adviser determines, in its business judgment and consistent with applicable law, that doing so is in the best interests of the applicable fund and its shareholders and variable contract owners.
